

*Græsland' 25, March 6, 2025*

## **Welcome to GRÆSLAND' 25**

The time is approaching rapidly, and we are all looking forward to June 4th, when Græsland' 25 takes place.

### **Setup of The Grounds:**

Setup and arrival of machines can occur from Monday, June 2nd at 8 am, and machines must be ready at the stands by Wednesday, June 4th at 8 am, when the area closes to traffic.

Trucks and flatbeds must unload machines in the designated area. Assistance with unloading can be ordered by arrangement with Lars. There will be a charge for unloading.

For moving machines, there will be a designated area for test driving and adjustments from Monday, June 2nd from 2 pm to 6 pm and Tuesday, June 3rd from 12 am to 4 pm.

Stands must be established no later than Tuesday, June 3rd at 8 pm. Cars/transporters must leave the exhibition area by 8 pm and be placed in the parking area. The area will be open from 5 am to 7 am on June 4th for final setups, after which cars must leave the area.

**Large trucks are not allowed on the grounds but must be unloaded and transported onto the grass field gently.**

### **The Stand:**

The stand plan will be provided later – we need all exhibitors before planning the stand distribution.

Stand sizes:

- 1100 m2 stand, 44m wide and 25m deep
- 800 m2 stand, 32m wide and 25m deep
- 300 m2 stand, 25 m wide and 12m deep
- 150 m2 stand, 12.5 m wide and 12m deep
- 30 m2 stand, 6 m wide and 5m deep

The area is set up so that machines that are not moving must be placed at the manufacturer's stand. After demonstrations, machines must return to their stands and remain there. The machines used for sowing demonstrations must be placed in the sown plots. The stand will be marked with signposts before the setup of the stand.

Exhibitors are responsible for their own tents/pavilions/tables and chairs, etc. There will be no electricity provided at the stands to minimize costs in case of cancellation (generators are not allowed), but power banks or outlets from electric cars used as power banks are permitted. However, the car must be parked at the exhibitor's own stand.

### **Catering:**

It is requested that no outside food is served at the stands. In April, an order form will be sent out where you can order catering food and coffee, which will be delivered from the local store and bakery.

LandboUngdom will, as at the last event, take care of food service in the main tent.

No beverages in cans or glass bottles may be brought, as this is to ensure that sharp objects do not end up in the feed.

Giveaways such as candies, mints, chocolates, cookies, and spring water with logo are, of course, allowed.

### **Logo package**

Attached is a file with the Græsland' 25 logo that we recommend you use in your communications leading up to Græsland' 25.

### **Opening Hours Græsland' 25**

June 4, 2022, from 9 am to 9 pm

### **Briefing**

On Wednesday, June 4th at 8 am, at the Food Tent there will be a short briefing and information about the day's activities for exhibitors and especially for the moving machines.

### **Dismantling/Cleanup**

Dismantling of stands can begin from Wednesday, June 4th at 9.30 pm. Please note that large machines should not obstruct traffic flow from 9 pm on Wednesday, June 4th. The area must be cleared by Thursday, June 5th at 5 pm.

It is expected that all moving machines will help clear the areas of grass ☺

Assistance with loading can be ordered from Lars, for a fee of 250 DKK per started hourly quarter. Contact Lars at 21 79 78 49.

### **Waste**

Waste containers are placed on the premises.

## Security on the grounds

There will be night watchmen on the grounds from Monday, June 2nd to Thursday, June 5th (3 nights). Therefore, no access to the area for others during the hours of 10 pm to 5 am.

## Driving and Parking:

Driving in the exhibitor area is not allowed from Wednesday, June 4th at 7 am to Wednesday, June 4th at 9 pm.

Please follow the instructions on the posted signs and by the guards in the area.

Parking is not allowed on the grounds. Refer to the free parking area.

All traffic in the exhibitor area is at your own risk.

## Electricity

There will be no electricity provided at the stands, as this is done to keep costs down in case of a late cancellation. Therefore, an arrangement has been made for coffee brewing by LandboUngdom. Power banks are allowed, but **generators are not permitted**.

The organizers' instructions must be followed at all times. The organizers assume no responsibility for accidents or delays in shipments or setups and dismantling of the exhibited items.

All traffic to and from the exhibitor area, parking, and adjustment area must go via Benslehøjvej, 7470 Karup.

## Insurance Conditions

Exhibitors are responsible for sufficient insurance for machines, goods, etc., against fire, theft, vandalism, and other damage during the exhibition. Exhibitors must also have liability insurance regarding motor liability (collision, accidents, etc.). Transport companies moving machines should have a freight forwarder's liability insurance covering loading and unloading as well as transport. In case of assistance with loading and unloading, the exhibitor of the machine bears the insurance responsibility, not Græsland.

## Adjustment and Test Driving of Machines

For moving machines, there will be a designated area for test driving and adjustments from Monday, June 2nd from 10 am to 2 pm and Tuesday, June 3rd from 12 am to 4 pm (see map of the area). Mowers can be test driven in the morning and the forage harvesters can be test driven in the afternoons on the two days.

All test driving must be agreed with Gerth.

### **Force Majeure**

The organizers reserve the right to make changes based on weather conditions and similar factors that may affect the execution of parts of the event.

Græsland reserves the right to change and supplement the above rules.

Best Regards

Græsland' 25 Secretariat
